

The Pebble Partnership invites you to join the online web broadcast “webinar” of the 2012 Baseline Environmental Team Agency Meeting presentations, highlighting the Pebble Environmental Baseline Document. This invitation is being provided to allow members of the public the opportunity to watch and listen to the presentations live online.

To participate in the webinar, please use the links provided on the following page to join the meeting session each day in order to view the presentations on your computer screen in real time and with the option to listen to audio via your computer. We are working to make video of the presenters available via a live stream over this link, as well.

At the time of the actual meeting, when you open the meeting link, after registering you will be prompted to open and run an ActiveX Control. This control requires administrative access to your computer. **If you do not have administrative access to your computer, use the second install option offered by WebEx after registering.**

The broadcast for each day’s meeting will begin at 8:15 am (AST) and continue until the last presentation of the day has concluded. Presentations will begin at 8:30 each day. You do not need to pre-register for the online broadcast, but you will be prompted for a password – the password is Pebble. You may leave and re-join while the meetings are in session. You will need to re-register each day via the links provided on the next page.

After you have logged into the meeting, the webinar application will display the PowerPoint slides in real time along with audio and video of the presenter. There is a small toolbar for the WebEx application that allows you to control the screen size. Note that if you maximize the presentation view to take up your entire screen, you will need to use the toolbar controls to minimize the screen to regain access to your normal desktop.

The webinar toolbar has a section for sending text messages directly to the webinar administrator. This messaging feature can be used to get assistance with using the webinar program or to provide feedback concerning the audio sound quality. Please note that meeting presenters will not be monitoring the toolbar text messages and the toolbar should not be used for asking questions to the presenters. Alternately, you may call the webinar administrator (Ben Mohr) at (907) 223-7635 if you need assistance before or during the webinar, or contact him by e-mail at [benmohr@pebblepartnership.com](mailto:benmohr@pebblepartnership.com) you need assistance prior to the start of the meetings. Please note that due to the large number of presentations to cover each day meeting presenters will only accept questions from agency personnel.

Pebble Limited Partnership will record all sessions offered at the 2012 Agency Meetings. These recordings will be posted to the internet after the agency meetings have been completed; details may be found at [www.pebblepartnership.com](http://www.pebblepartnership.com). Additionally, copies of the entire 4-day session will be available on DVD. To request a copy of this DVD please email [AgencyMtg@PebblePartnership.com](mailto:AgencyMtg@PebblePartnership.com) after February 3<sup>rd</sup>, 2012.

## **Pebble Project Baseline Environmental Team Agency Meetings**
